## Polynuclear Aromatic Hydrocarbons (PAHs)

### Product: UCY-TP-BF-350

Due to the methods employed in the manufacture of the above referenced product (no pyrolytic processes, no PAHs used) and the raw materials from which it is produced, we would not expect any Polynuclear Aromatic Hydrocarbons (PAHs) to be present in our product except for possible trace levels that may be the result of environmental pollution sources.

We are disclosing this information, to the best of our knowledge, based upon data from our manufacturing processes and from our raw material suppliers. Please note that we do not analyse the raw materials used in the manufacturing process of the above referenced product or analyse the above referenced product, for the presence of any PAHs.

This information is correct to the best of our knowledge as of 17 September 2018.

Kind regards,

UCY ENERGY GROUP  
UCY business services & trading GmbH

Thilo Schneider
